

Graphic Design and Visual Communications Project

Project Title	Graphic Design and Visual Communications Project
Project Summary	Support the National Counterterrorism Center's (NCTC) Directorate of Intelligence (DI) with analytic and multimedia production to develop original graphic design, infographics and illustration products.
Country	United States

Project Description

VSFS Interns will assist in the development of original graphic design products from concept/brainstorming to final printed materials. Through unclassified means (e.g., using a combination of prescribed software and tools), interns would be expected to develop graphics, receive feedback and edits, and produce finalized designs to support marketing, strategic communications and information graphics to support the National Counterterrorism Center and the Office of the Director of National Intelligence. The graphics products will be used for print, large screen display and web based display.
